

Attention Residents and Business Owners:

Would you like to see faster internet speeds in your home or office? Perform a speed test for your household or office to have a chance to win a \$200 Chamber of Commerce Gift Certificate!

The Village of Fraser Lake is currently waiting to hear if we will receive Federal funds to install a fiber optic network. An advancement such as this would greatly improve the internet connectivity and speeds within our area!

This week we are asking you to conduct connectivity speed tests in your homes and offices. The process takes only a few minutes, and the reward could be large. The speed tests conducted this week will help decision makers to determine whether or not the Village of Fraser Lake may receive Federal funding for this new infrastructure. It would be preferable if you conducted 2 to 3 speed tests at different times of the day and different days of the week.

If you have already participated in the past, we thank you for your efforts. However, we require more recent data and for you to complete the test again. The more participation we have in these tests, the better our chances will be to receive the grant funding! **This week will be our last effort to conduct these tests. Please try to conduct your speed tests before the end of Monday July 19.**

We greatly appreciate your participation, thank you! Please see reverse side for your ballot and further information on the contest.

To conduct your speed test:

1. Open your internet browser (such as Google) and type in at the top of your screen: performance.cira.ca
2. Hit the "enter" button on your keyboard.
3. On the left side of your screen, check that the postal code is correct.
4. Click the **orange start button**.
5. If there appears to be a blank map, scroll out with the minimize (-) button until you can see Fraser Lake.
6. There is an orange pointer arrow on the map. Click on it, hold down the cursor and drag it to the location you are conducting the speed test. You will likely need to click and drag on the map a few times to get to the location you want.
7. Once the orange point is in place, click on the **OK button** and let the system do the rest.

If you have any questions, or if require assistance conducting your speed test, please contact Dave or Kristin at the Village office (250 699 6257).
